

Felt Decoration Template

How to make a Felt Tree Decoration

1. Using scissors cut out the paper template.
2. Pin the template to the felt and cut two.
3. Add your design using embroidery floss.
4. Fold a ribbon in half and stitch the ends to the top of the inside of the back felt shape.
5. Place the two shapes with insides together and begin blanket stitching around the edge, leaving a small gap for stuffing.
6. Once stuffed finish blanket stitching so that it meets your first stitch and your decoration is ready to hang on the tree!
