# Reversible Mini Christmas Stocking Template

## How to sew a Christmas Stocking

1. Using scissors cut out the paper templates.
2. Pin and cut two stockings from your main fabric, two stockings from the lining fabric, and two of the square from your contrast fabric.
3. Add your design using embroidery floss, sequins etc.
4. Stitch the top of a main fabric stocking to one edge of a contrast fabric square.
5. Then stitch a lining stocking to the opposite edge of the contrast fabric so that it mirrors the first stocking.
6. Repeat with the other three fabric pieces to mirror.
7. Place the two pieces on top of each other, with right sides together pin and sew around the edge, catching a ribbon loop in the seam of the main fabric stocking, and leaving a 5cm gap on the lining fabric side.
8. Turn through at the gap we left in the lining fabric so that the right sides are visible, then hand stitch the gap closed before tucking the lining back inside the stocking.
